1	2026-05-12 19:43	Lee Open in Slack	@channel please check submitted by parent but when school went to check, it was not there. I cleared filters to find this ARF is not marled as Please Check. Can this be investigated please? Synge Street CBS *Student Name :* Sidiq Obaidy	[11:25] Ravindra Chherke: @Harshwardhan More @Ayush Kharpuse @Sonali Gaikwad [17:58] Lee: any update on this one? [20:02] Ayush Kharpuse: Hi @Lee I have checked the logs, and the email was sent from the system. Most likely, this was triggered by a quick ARF request. I still need to check a few more logs, and once I have more details, I'll update you further. Thank you.
2	2026-05-12 17:23	Lee Open in Slack	@channel what's the status on Daily Emails? Are they functional if we enable from Access & Permissions?	[2 earlier replies not shown] [13:09] Krishna Thite: Project Code: NA
3	2026-05-12 17:00	Lee Open in Slack	@channel email confirmation for absent note is not very clear. This parent selected the 6th of May and the 8th of May. In the email it shows 2026-05-08, 2026-05-12. This looks like it's from - to. It should be more clear eg: > Thank you for submitting your absentee note for: > • 6th May 2026 > • 8th May 2026 > The note has been submitted to the school. Note, the date format too. In Ireland, we use DD/MM/YYYY YYYY/MM/DD is too confusing for users. Please ensure going forward any date formats should be DD/MM/YYYY or like 6th May 2026. We need to update all areas of the system (big job perhaps but necessary). James mentioned this multiple times. Can this please be done? Also @Kumaraswamy R is the date range selection on absent note live? Instead of individual days, it's a range selection. Please confirm and make Mount Anville live if not already. Please also do this for all school apps. Thanks	[4 earlier replies not shown] [13:12] Krishna Thite: Job : Enhance Absent Note Confirmation Emails & Implement Date Range Selection Project Code : 835

13	2026-04-29 12:40	Lee Open in Slack	> Hi James, > > I've attached screenshots here from the Team Manager app. > > Yesterday, I was bringing students to athletics and marked the attendance on the app — 9 out of 10 were present. I set the time from 8:55 to 3:50 and saved it, but for some reason it only saved as 8:55 to 9:55. > > Later that evening, I tried to update it, but it keeps reverting back to 9:55. It seems like it won't allow the event to go on for longer than an hour. > > Because of this, the students are showing as absent after 9:55 on the roll and VSware. > > Any idea what might be causing this, or how I can fix it? > > Thanks, > Martin > Mercy College, Roscommon See attached screen recording.
