1. AI-Generated Summary

1. ISSUES REPORTED

Issue 1:

- **Description:** Kumaraswamy R requested approval for a new Developer's program license agreement on the Unique School Communications apple account to upload the Boarders app.
- **Reported by:** Kumaraswamy R at 12:29
- **Current status:** Resolved
- **Resolution:** Emma, the account owner, had already approved the license agreement.

Issue 2:

- **Description:** Lee requested the ability to create a group in Team Manager from a Team for payment purposes.
- **Reported by:** Lee at 14:12
- **Current status:** Resolved
- **Resolution:** Harshwardhan More confirmed that the feature can be implemented.

Issue 3:

- **Description:** Lee inquired about the status of the Boarders app/web and the implementation of certain features.
- **Reported by:** Lee at 15:00
- **Current status:** In-progress
- **Resolution:** Pending testing and approval for certain features before live deployment.

Issue 4:

- **Description:** Fernanda requested the deletion of a message from the Meanscoil Naas app that was still visible to parents after being deleted by the school.
- **Reported by:** Fernanda at 15:02
- **Current status:** Unresolved

Issue 5:

- **Description:** Sunny requested the merging of profiles for St. Colman's CC Midleton.
- **Reported by:** Sunny at 17:02
- **Current status:** Resolved
- **Resolution:** Manish Pathe confirmed the profile merger and trashed the duplicate student.

Issue 6:

- **Description:** Fernanda sought clarification on how refunds affect limit orders.
- **Reported by:** Fernanda at 17:05
- **Current status:** In-progress
- **Resolution:** Kritika Wadhwa to make a fix live by the next week during midterm.

2. TASKS ASSIGNED

Task 1:

- **Task:** Implement the fix for the issue where refunded orders do not free up the limit.
- **Assigned by:** Fernanda → Kritika Wadhwa
- **Deadline:** Next week during midterm
- **Status:** In-progress

3. DECISIONS MADE

- The Boarding Manager template for PN messages was finalized and shared by Lee in the thread started at 17:02.

4. OPEN QUESTIONS (Unanswered)

- **[URGENT]** Fernanda asked about the deletion of a message from the Meanscoil Naas app, but it remains unresolved. (Asked at 15:02)

5. KEY DISCUSSION HIGHLIGHTS

- Kumaraswamy R confirmed that the NFC scanner hardware will be at the backside of phones and tablets for scanning student cards.
- Lee discussed the implications of using an external NFC reader for iPads and the need for changes in the app's integration.
- Fernanda and Kritika Wadhwa discussed the impact of refunds on limit orders and the subsequent fix required.

6. THREAD-BY-THREAD SUMMARY

[12:29] — Kumaraswamy R requested approval for a new Developer's program license agreement

Original message: Hi @Fernanda @Sunny, Can anybody please approve the new Developer's program license agreement on *Unique School Communications* apple account? I'm not able to upload Boarders app.

Thread summary: Fernanda shared login details, Kumaraswamy R confirmed Emma's approval, issue resolved.

[14:12] — Lee requested the ability to create a group in Team Manager

Original message: Can we have an option to create a group in Team Manager from a Team? This is useful for creating payments based off the team.

Thread summary: Sandeep Jain tagged Prajwal Chaudhari, who created a task for the feature, and Harshwardhan More confirmed implementation.

[15:00] — Lee inquired about the Boarders app/web status and features

Original message: What's the status on boarders app/web? NFC cards have arrived, can I test on the current boarders app @Kumaraswamy R?

Thread summary: Discussions on app changes, absent explained option, PN templates, and NFC scanner positioning.

[15:02] — Fernanda requested deletion of a message from the Meanscoil Naas app

Original message: Can you please delete this message from Meanscoil Naas app, school deleted from notification, but still visible for parents.

Thread summary: Sandeep Jain tagged relevant team members, issue remains unresolved.

[17:02] — Sunny requested profile merging for St. Colman's CC Midleton

Original message: Can we please merge the profiles for St. Colman's CC Midleton?

Thread summary: Sandeep Jain tagged team members, Manish Pathe confirmed profile merger and deletion of duplicate student.

[17:05] — Fernanda asked about refunds affecting limit orders

Original message: Urgent query, limit orders, when processing a refund, does the refund still count as an order in the limit?

Thread summary: Discussions on refunds, limit orders, and the need for a fix.

[19:53] — Lee addressed issues with ARF settings for Loreto Abbey

Original message: Loreto Abbey are getting PM ARF, they only want AM ARF. Can we disable for PM for this school?

Thread summary: Sonali Gaikwad explained the setting and the need to avoid automated ARF generation.

[20:29] — Sunny inquired about app engagement for St. Brigid's Presentation Secondary School

Original message: Can you please check the incoming 2026 status for St. Brigid's Presentation Secondary School (Killarney)?

Thread summary: Discussions on registration issues and app engagement counts.

This summary covers all the issues reported, tasks assigned, decisions made, open questions, key discussion highlights, and a detailed breakdown of each thread's content.

[illegible]

[illegible]

cc: @Sonali Gaikwad @Ayush Kharpuse

■ [15:55] Lee: "Alternatively, we can prefill the title and description as you suggested in the Trello card, and keep them editable as well."

Do this for now, thank you

■ [16:08] Lee: Notify Parent when marking Absent Unexplained in the app is working but on the web, it's greyed out. Is there a reason for this @Vivek Jadhav?

■ [16:10] Lee: @Kumaraswamy R Notify Parent when marking attendance from app does not generate a PN? Web version generates PN and we can see it on student profile

■ [16:11] Kumaraswamy R: Checking

■ [16:13] Lee: also do we need to scan card on the back of the device? Students will be scanning from the front, is that possible? If so we need to change the wording "Place your card on the device and hold steady"

■ [16:14] Kumaraswamy R: No, the position of the NFC scanner hardware will be in the backside of the phones and tablets

■ [16:14] Lee: is there a way to check which card is assigned to a student via scan option? Perhaps in settings > Student Card Provision, we should have a "Check Card" option or something

■ [16:15] Lee: No, the position of the NFC scanner hardware will be in the backside of the phones and tablets

• Damn, this is not ideal, the tablet will be in a casing/mounted. We need to figure this out somehow

■ [16:17] Lee: hmm ipads do not have NFC lol

■ [16:17] Lee: I didn't realise

■ [16:17] Kumaraswamy R: The device will scan the card if the card is in proximity of the sensor. Sometimes it might fail if scanned from front.

Ideal position is to tap at the top if it's an iOS or on the backside if it's an android device

■ [16:20] Vivek Jadhav: @Lee If the reason is "Absent Unexplained," the "Notify Parent" option is currently disabled as per the previous requirement. Would you still like the option to notify parents in this case?

cc: @Sonali Gaikwad @Ayush Kharpuse

■ [16:21] Lee: yes, please allow this Vivek

■ [16:23] Lee: @Kumaraswamy R we can get an external NFC reader for the iPad, this should be fine. Can you update the message when scanning

"Place your card on the scanner and hold steady"

This NFC scanner will be clearly marked and beside the device so students will not miss it

Thanks

■ [16:28] Kumaraswamy R: I'm not sure if the NFC scanner will support the current app out of the box. I need to check on this

■ [16:29] Lee: <https://www.amazon.co.uk/ACS-ACR1552U-USB-C-NFC-Reader/dp/B0CNY5G8T3>

It's just a plug & play scanner, our good friend chatgpt says it should be fine

■ [16:31] Lee: :face_palm:

The ACR1552U can work with your app, but it does *not* behave the same way as built-in NFC on a phone/tablet*. The reader supports *PC/SC smart-card mode* and a separate *keyboard emulation mode*. ACS also says the keyboard-emulation configuration tool is for *Windows only*, while its iOS/iPadOS app support is via its own tools rather than native iPad NFC hardware.

So the key distinction is:

- *Built-in NFC flow:* your app is likely listening for NFC events through the device NFC APIs.
- *External reader flow:* the ACR1552U usually presents card data either through *PC/SC* integration or by *typing* data like a keyboard wedge. That is a different integration pattern.

What that means for your app

If your app currently "works with built-in NFC," then in most cases it will *not* automatically work* with the ACR1552U as-is.

It may work with minimal changes only if:

your sign-in screen already has a focused input field and you are happy for the reader to *paste/type the card UID* into that field, like a barcode scanner. That would mean treating the reader as keyboard input rather than as NFC input. The ACR1552U explicitly supports *keyboard emulation mode*.

It will need more substantial changes if:

your app currently expects to receive NFC tag data directly from the device NFC framework and then parses records from that NFC session. In that setup, an external USB reader is a different source and your app would need a new integration path. The ACR1552U's developer path is through its *PC/SC-compliant API/SDK*, not the iPad's built-in NFC APIs.

Best practical route

For a school sign-in app, the easiest setup is usually:

1. Configure the ACR1552U to output the *UID* in keyboard emulation mode.
2. Add a dedicated hidden or visible input field in your app.
3. When the UID is typed in, your app looks up the student and completes the sign-in.

You also need to confirm that your student cards are compatible with the reader and that *UID output is enough* for your system. The ACR1552U supports common 13.56 MHz card families including ISO 14443 A/B, MIFARE, FeliCa, ISO 15693, and NFC tags.

Assume this:

Most likely:

The cleanest approach is to adapt the app so the reader acts like a scanner, not like built-in NFC.

■ [17:02] Kumaraswamy R: Hi @Lee,

Web version generates PN and we can see it on student profile``

@Sonali Gaikwad Please correct me here

■ [17:20] Lee: *Title:*

Message:

The Boarding Manager has provided the following information:

Further Details: [Include only if provided]

@Sonal Gaikwad @Vivek Jadhav

Any Q's let me know

Should we include an "Additional Field" as a note to capture further details directly within the absentee note? Alternatively, should the PN message be referenced separately as supporting details to be submitted along with the absentee note?

■ [19:26] Lee: further details can be the Note if the user enables the send pn [Attachment(s): Screenshot 2026-03-25 at 13.55.49.png]

■ [19:57] Sonali Gaikwad: Hi @Lee Will there be 2 different templates for absent explained and unexplained?

■ [19:58] Lee: Just use the same template for both, I shared it above

Should we need to show Title and Description edit option on the Mark Absent form UI? If yes, this change will need some time.

■ [20:22] Lee: yes, keep static for now

If the "Send PN" option isn't selected, should we still create the PN without sending a push alert, or skip creating it altogether?

[illegible]

Can you please delete this message from Meanscoil Naas app, school deleted from notification, but still visible for parents. [Attachment(s): IMG 2989.PNG]

■ [15:03] Sandeep Jain: @Prajwal Chaudhari @Shruti Kokate

[illegible]

■ [17:02] Sunny: @channel can we please merge the profiles for *St. Colman's CC Midleton?*

Alex Linnane - 14846956 is correct student id [Attachment(s): image (164).png]

■ ■■ Replies:

■ [17:03] Sandeep Jain: @Manish Pathe @Sonali Gaikwad

■ [17:54] Manish Pathe: @Sunny Profile merger has been done and trashed the duplicate student

CC: @Sandeep Jain

■ [18:39] Sunny: thank you Manish

[illegible][illegible]

■ [17:05] Fernanda: @Kritika Wadhwa urgent query, limit orders, when processing a refund, does the refund still counts as an order in the limit?

■ ■■ Replies:

■ [17:05] Fernanda: or does it free up for another parent

■ [17:09] Kritika Wadhwa: Hi @Fernanda If its a full refund then it doesnt count as limit.

Still i am checking will confirm in 5 mins

■ [17:12] Fernanda: I think I have it, it is not adding the limit back after the refund. please confirm anyway

- [17:12] Kritika Wadhwa: okay

■ [17:18] Kritika Wadhwa: Okay i see, the item disappears even if the order is refunded.

■ [17:18] Kritika Wadhwa: Should i fix it?

■ [17:20] Fernanda: how long does that take to be fixed?

■ [17:20] Fernanda: just cause the school will need to allow them to make the payment now, so she would extend the number of payments

■ [17:21] Kritika Wadhwa: i can make that fix live by tomorrow

■ [17:22] Fernanda: so please wait until next week, during midterm to implement

■ [17:23] Fernanda: I will say to the school, so they can increase the number now to allow payments (trip is tomorrow)

- [17:23] Kritika Wadhwa: Okay

■ [17:23] Fernanda: thank you

■ [17:24] Sandeep Jain: What are the start / end dates for mid term

■ [17:28] Fernanda: start March 30th ends April 10th - its two weeks starting monday

■ [17:58] Prajwal Chaudhari: <https://trello.com/c/DdAFKwNy> [Preview: [no preview available]]

■ [18:04] Prajwal Chaudhari: job no :- 713

Job title :- Urgent query about limit orders and refunds

[illegible][illegible]

■ [17:31] Fernanda: @Kritika Wadhwa multiple payments, the item has been paid for this student, I still can see the item but cannot pay again. [Attachment(s): File.jpg]

■ ■■ Replies:

■ [17:32] Kritika Wadhwa: Which school is this @Fernanda?

■ [17:32] Fernanda: I also need to test how does the reminder and opt-out work for this type of payment. Also - if it gives a pop up to the parent to say it has been paid for the student before if they wish to pay again

■ [17:32] Fernanda: I am checking in our demo

■ [17:33] Kritika Wadhwa: Okay please test and let me know if anything is required

■ [17:34] Fernanda: well, starting with allowing for multiple payments. not allowing me to pay again

■ [17:35] Kritika Wadhwa: have you updated the app?

■ [17:36] Fernanda: i didnt, thanks!!

■ [17:36] Fernanda: will test the rest now

■ [17:36] Kritika Wadhwa: Okay

■ [18:03] Fernanda: • why does it show 'ongoing'? it is not an ongoing payment, once paid, it should display paid

- reminder - I believe its not triggering if has paid at least once, can you confirm if this is the case?

■ [18:05] Kritika Wadhwa: • If the payment has started then we change the status to ongoing as parents can still pay again (Marking as paid will close the payment). On unpublishing the item the statuses will be updated

- Yes if they have paid atleast once there will be no reminder
- [18:15] Fernanda: can we change from ongoing to received?
- [18:16] Fernanda: ongoing just sounds like there is more to be paid, which may not be the case
- [18:17] Kritika Wadhwa: Sure will change from ongoing to received

■■■ THREAD #8 (4 replies)

■ [19:53] Lee: Loreto Abbey are getting PM ARF, they only want AM ARF.

It's coming through Auto API, can we disable for PM for this school?

■ ■■ Replies:

■ [20:04] Sonali Gaikwad: The setting is added as AM & PM school [Attachment(s): image.png]

■ [20:05] Sonali Gaikwad: It runs based on the setting added

■ [20:24] Lee: it is AM/PM school but they do not want to send PM ARF

We still need to mark as AM/PM school because of the cumulative counts

The automation will generate the ARF based on the school's session settings

[illegible]

There are 137 incoming students but why only 26 users there in app engagement?

■ ■■ Replies:

■ [20:40] Sandeep Jain: Did they specify the reason for not being able to register

I don't know why this is happening as all numbers are on the system and they have got the text message.
Can you advise please.

■ [20:53] Sunny: cc @Fernanda @Lee staffsupport query
