6	2026-03-25 15:00	Lee Open in Slack	@channel What's the status on boarders app/web? NFC cards have arrived, can I test on the current boarders app @Kumaraswamy R?	[45 earlier replies not shown] [13:05] Ravindra Chherke: @Lee @Sonali Gaikwad @Ayush Kharpuse The roll call functionality is for the house. *Can you confirm what happens in this scenario.* If a student is present in the house but is sick and unable to attend school, how should the manager mark attendance? • If marked absent, the student is absent in both house and school. • *If marked present (but sick), then student is present at the house and at school as well (no write-back).* However, in reality, the student is present in the house but absent from school due to illness. [13:09] Lee: Hmm that's a good point [13:32] Lee: we need 3 dots option beside the Present button with option Present (Sick). If Present (Sick) option is selected, it should give the same options that Absent gives (same popup modal with options to select reasons etc and send notification to parent). Hope this makes sense @Ravindra Chherke @Kumaraswamy R @Vivek Jadhav You can thank Ravindra for this extra work :smile: [14:14] Lee: @Ravindra Chherke @Sandeep Jain @Kumaraswamy R @Vivek Jadhav
7	2026-03-24 15:17	Fernanda Open in Slack	@Sonali Gaikwad Wesley college in manage ARF page its saying that its confirmed ABS, however in the Attendance is saying requested, so I cannot cancel the request. any advice?	[8 earlier replies not shown] [13:23] Ravindra Chherke: @Sonali Gaikwad We should find why this happend. [14:16] Sonali Gaikwad: @Ravindra Chherke ARF screen says confirmed ABS therefore absent report show the absentee with requested status. We are not allowing to cancel/delete the ARF if it is not in requested/no status. Teacher had already taken action that student is confirmed ABS on please check requested by parent.

School office have been adding many duplicate student profiles. See screenshot. They are adding with Tyro ID.

We need to identify and merge all of these profiles. I'm not sure what the best way to do this is. Open to suggestions.

Thank you [Attachment(s): Screenshot 2026-03-30 at 10.29.26.png]

■ [15:07] Sonali Gaikwad: @Lee, I'll add information on student id that which ID to put in this box. It will be based on our school mapping.

■ [15:09] Lee: OK, thanks Sonali

But how can we solve the current duplicate students. I believe there are many that need to be merged

■ [15:09] SYSTEM: *<slack://user?team=T06UTJTKVUM&id=U0701K0LL9X|@Sonali Gaikwad> created a card* [Preview: [no preview available]]

■ [15:10] Sonali Gaikwad: We need to do manually on db level

■ [15:10] Lee: OK I'll try to identify duplicates and provide a list

■ [15:25] Lee: @Sonali Gaikwad I just accidentally deleted some students from this school mis list. Can you restore them? If possible check logs and restore as I cannot remember all the names.

One name was *Larissa Trindade*

■ [15:25] Lee: apologies

■ [15:27] Sonali Gaikwad: :flushed:

■ [15:27] Sonali Gaikwad: how many?

■ [15:28] Lee: maybe like 5 or 6

■ [15:30] Lee: slightly more than I thought

■ [15:32] Sonali Gaikwad: 14 students trashed

■ [15:38] Sonali Gaikwad: FYI. Delete action also removes the student from these modules Groups, Chat groups, Consent forms(not submitted), Shop(upaid), Personal notification.

1. If student is an app user then he/she will get unlinked

2. Their parent will also get unlinked if no other active child is present in the school

■ [15:39] Sonali Gaikwad: @Manish Pathe Please restore the students for Colaiste Eamann Ris school deleted recently.

■ [16:25] Manish Pathe: @Lee Would you like me to establish the linking for students and parents?

■ [16:27] Lee: yes please, thanks Manish

■ [16:33] Krishna Thite: Job : MIS student - show student id column to refer from MIS dashboard

Project code : 727

■ [17:58] Sonali Gaikwad: @Lee, please see if this works for school. Added in tooltip and and input text box placeholder [Attachment(s): image.png]

■ [18:06] Lee: it should be PPOD/Dept ID but yes this would work for schools if it picks up which ID to use

Should only need placeholder, can remove the tooltip

■ [18:07] Lee: it should say "Please use Dept/PPOD ID" or "Please use VSware ID"

■ [18:09] Sonali Gaikwad: It will show the name whichever we have mapped the school in wonde and tyro dashboard

■ [18:09] Lee: perfect

■ [21:21] Manish Pathe: @Lee All 14 deleted students have been retained, along with their associated linking and deleted data for the following modules:

- Groups,
- Consent Forms (not submitted),
- Shop (unpaid),
- Personal Notifications.

■ [18:17] Tejas Mahadik: yes, the date range should include today within it, and there should be absentees including today backwards till start of academic year

■ [18:17] Lee: understood, thank you for confirming Tejas

■ [12:09] Krishna Thite: No project needed in FMP

- Irish language translation issue:

The system should only translate the interface labels, not the actual message content written by the school.

I thought this was resolved? For Irish language, we should only translate the app/menu items etc, not the content of Notifications/News/PNs etc.

■ ■■ Replies:

■ [17:25] Ravindra Chherke: @Kumaraswamy R

■ [11:21] Kumaraswamy R: Hi @Lee,

Is this for all the schools or for a particular school?

■ [12:43] Lee: I believe it applies to all schools but Colaiste Mhuire Cabra is the one who complained

■ [12:43] Lee: Hi btw :slightly_smiling_face:

■ [12:48] Kumaraswamy R: Okay, the translations are currently being done at server end and fetched accordingly as per the user's language preference on the app.

But there's a special validation for Irish language where it shows the original notification and not the translated one.

@Yashraj Talokar and @Shruti Kokate are currently checking this on QA2.

They will provide an update on this ASAP.

■ [12:50] Lee: > But there's a special validation for Irish language where it shows the original notification and not the translated one.

Correct, school said this is not happening and it is translating. I'll await feedback, thank you
