■ [19:06] Lee: @Harshwardhan More @Ayush Kharpuse

Can you guys take a quick look at this please?

■ [12:45] Lee: Let me know when fixed please @Harshwardhan More thanks

■ [12:53] Harshwardhan More: Yes

■ [18:06] Harshwardhan More: @Lee We are receiving the absence code directly from Wonde. If Vsware shows "ill" but Wonde returns "abs," this could be an issue on Wonde's side.

If you'd like, we can wait until after Saturday since they run a weekly job on Friday--there's a chance it may resolve automatically.

Otherwise, I can reach out to Wonde to have it fixed. [Attachment(s): image.png, image.png]

■ [18:07] Harshwardhan More: @Krishna Thite Please create an FMP job for this, mark it as complete, and share the job details here. Thanks.

■ [11:26] Lee: Do not mark as complete until it's resolved. We can wait until Monday. Please ensure to check this Monday to see if Wonde updated the data and if not, reach out to them. Thanks
