1.a [11:19] — Boarder system deployment update

Original message: Ayush Kharpuse: Hi @channel @Lee @Sunny @Fernanda

The Boarder system has been deployed on live. The website is available and fully functional, the Android mobile app link has been shared on the Trello board, and the iOS app is available on TestFlight. Once the build is ready, we will deploy it to live.

website: <https://boarders.uniqueschoolapp.ie>

Trello: <https://trello.com/c/4vCZaAWe>

Thank you

Project Code: NO PROJECT CODE

Thread summary: Lee inquires about enabling the system for Wesley College, to which Ayush confirms it's available for all schools and provides instructions. Lee seeks further clarification on enabling Boarders and granting access to staff, which Ayush explains step by step. The thread ends with instructions on how to proceed.

1.b [12:47] — CMS performance issue

Original message: Sunny: @channel the CMS is very slow today even after clearing the caches (i've already deleted browsing data before recording this). Can you please check why? Lee got an application error message from YHD.

Project Code: NO PROJECT CODE

Thread summary: Various team members discuss a slow CMS issue, potential database-related causes, and errors in the School App. After some troubleshooting and fixes, the issue is resolved within the thread.

1.c [13:10] — Standard error screens implementation

Original message: Lee: When we have an app issue like this, we need to show proper error screens all over the system with a message. This should be standard.

Project Code: NO PROJECT CODE

Thread summary: Lee requests the implementation of standardized error screens, leading to a discussion on creating error screens with branding and proper messages. The thread ends with the team working on designing and refining the error screens.

1.d [13:36] — Issue with late request feature

Original message: Lee: Add late request is not working @channel get this error

Project Code: NO PROJECT CODE

Thread summary: Lee reports an issue with the late request feature, prompting a quick acknowledgment from team members to check and resolve the problem.

1.e [14:28] — Demo student addition issue

Original message: Lee: @Vivek Jadhav @channel @Ayush Kharpuse Wesley trying to add a demo student, please check

Project Code: NO PROJECT CODE

Thread summary: Vivek acknowledges the issue and suggests a temporary solution. Lee later updates that the issue was resolved by changing details. A question about flagging bugs is raised, leading to a discussion on the best way to report issues effectively.

1.f [16:26] — Saturday availability in Evening Study

Original message: Lee: How easy is it to make Saturday available in Evening Study? Some schools will have sessions on Saturdays when it's close to exam time. Is this an easy update? @channel

Project Code: PROJECT 778

Thread summary: Tejas checks the feasibility, and Vivek confirms the addition of Saturday to the schedule on QA2 for testing and deployment. A job is created to enable the Saturday option in the Evening Study schedule.

1.g [17:50] — App crash investigation for card addition

Original message: Fernanda: @Kritika Wadhwa parent is trying to add a card but app is crashing

Project Code: PROJECT 779

Thread summary: Kritika investigates the app crash during card addition, seeking device details and OS version. The discussion involves troubleshooting the crash on the stripe page and determining if it's related to the app or stripe integration.

1.h [18:15] — News tab enablement request

Original message: Sunny: @channel Can you ensure that News is enabled for Malahide Community School 2899? both app and cms cc @Shruti Kokate

Project Code: **NO PROJECT CODE**

Thread summary: Shruti confirms the addition of the News tab for Malahide Community School, addressing the request made by Sunny.

1	2026-04-16 16:52	Sunny Open in Slack	@channel St Flannan's - shop teacher group a teacher created a group of teacher wanted to add a teacher payment in shop but there's no "group" filter under teacher payment. Is it okay to have the group there too under teacher setup? cc @Fernanda	[11:54] Kritika Wadhwa: @Sunny, As per current functionality, both teachers and students can be added to the same group, so we do not have any group-level filter at the moment. However, we can implement this, but it will require some effort. In cases where a group contains both teachers and students, we would need to apply logic to display only teachers accordingly. [12:05] Sunny: Thanks Kritika for checking - will check with dublin team and let you know if we need to implement it thanks [12:06] Kritika Wadhwa: Okay Sunny [12:13] Sunny: might not worth it to implement but can you keep in mind in the new build of the shop [12:13] Kritika Wadhwa: okay
2	2026-04-14 19:32	Lee Open in Slack	@channel can we increase the character count in Detention Manager > Settings > Reasons > Description & When adding student to detention > Description	[12 earlier replies not shown] [12:10] Sunny: how long will the testing be? Can we expect it to be live next week? (just wanna inform the school [12:10] Sunny: @Tejas Mahadik [12:12] Tejas Mahadik: @Lee yeah, maybe next week. There are some more bug fixes in detention reported by Prajwal while testing so will fix them too.
3	2026-04-14 17:11	Sunny Open in Slack	@channel cc @Kumaraswamy R iphone users when they log into the past pupil app, it's always just frozen and they think the app isn't working. Even though after i close and reopen again it's working fine but that's not feasible for schools. Can you look into that?	[32 earlier replies not shown] [18:48] Kumaraswamy R: Hi @Sunny @Lee, Please test the new build on the TestFlight *2.2.1 (24)* and let me know the results. Thanks

[11:24] Lee: can we make live for wesley college? Thanks Ayush

[11:30] Ayush Kharpuse: @Lee yes, The website is available for all schools. We can enable it for them from the admin control. Since the mobile version hasn't been deployed yet, you can share the links with them.

[11:33] Lee: Thanks, do I just enable boarders in Additional Features? Is there anything else? What is Boarding - [HTML] in Modules?

[11:34] Lee: also do I need to give any access to staff?

[11:36] Ayush Kharpuse: 1. Enable it from the Admin control
 2. Add Teacher as Boarder Manager from the access and permissions.
 3. Login in Boarders App/Web. [Attachment(s): image.png, image.png]

Replies:

[12:49] Ravindra Chherke: This seems to be due to database.
 @Yashraj Talokar Looks like PN is causing this

```
``SELECT `t` . *, `t` . `id` AS `id`, `r` . `send_to` AS `send_to_user`, `r` . `published` AS `user_published`, GROUP_CONCAT ( CASE WHEN `r` . `student_firstname` = ? AND `r` . `student_lastname` = ? ■ [14:32] Vivek Jadhav: @Lee We'll fix this soon. For now, refreshing the page and adding them again should work.

Sorry for another email so soon!

For flagging bugs etc, what is the best way to go about this so that it is best for you to look at them. It has crashed on me a couple of times and the error is pasted below but I don't want to be emailing you any time so am I best maybe to make a word document and add in anything?

Enda
